Dear [redacted]

I have attached a cut down version of the soil data sheet that you provided I have a question. If you open the spread sheet and look at line 15128 (this is the first detected result for GenX) the reported result is 0.0002 mg/kg which translates to 0.2µg/kg using the same units as in the final decision document date 25/5/21. Can you confirm my assumption is correct and there has not been an error in the way the result has transferred?

Regards

Subject: RE: Preliminary consultation soil remediation Custom Powders Grasbeemd 10 Helmond (NL)

Dear [redacted],

Thank you for your response. [redacted] informed us that he was unable to attend the meeting due to

his vacation. We appreciate that you take your translator [5.1.2e] with you. In this way you can be sure that you can properly absorb the available information and thus contribute to the preparation of a thorough remediation plan. If you would like I can add [5.1.2e] to this meeting, so that this meeting is also included in his agenda. To do so I will need his e-mailadres.

Kind regards.

Dear [5.1.2e]

[5.1.2e] cannot attend the meeting, in his place [5.1.2e] will attend to assist because I do not speak Dutch and [5.1.2e] is not very comfortable speaking English. So that it is clear, and not a surprise, [5.1.2e] is a solicitor from Magnus and Weiss, he is not attending in his capacity as a solicitor but as someone I have worked with and trust his ability to accurately translate.

I intend to provide our expected agenda shortly, this is so that we are clear on what our expectations are for this meeting.

Regards
